

# MOBILITY DATA EXCHANGE MADE SIMPLE

YoGoKo product : **Y-GHOST**

## You are

Vehicle makers, Test tracks, OEM  
& tier 1 supplier.  
Road infrastructure operator &  
New Player in the cooperative mobility.  
Smart city infrastructure provider.

Test it with connected digital  
twin to reduce efforts

## Your needs

Emulate new functionalities for vehicle  
in real and virtual contexts.  
Develop new features with optimized  
investments.

Emulate cooperative  
connectivity  
Between vulnerable & vehicles

## We offer

Software license, maintenance and  
support for integration & usage.  
Augmented Driver Assistance using  
V2X communications.

Support Data Fusion

## Our values

Reduce development time and cost.  
Optimize engineering effort.  
Enable complete data fusion.

## Our solution

**Y-GHOST**, a tool suite for  
development and validation  
in real & virtual environments.

**Y-GHOST**

## Your benefits

Reduce planning impact.  
Virtualize V2X connected target on test tracks.  
Increase functional safety level by using V2X in the data fusion.  
Increase scenario repeatability and ISO 26262 & 21448 coverage.
